beacon

This EP contains two live performances of the evolving piece Beacon. Beacon is a call to immersion. The listener is prompted to sit in the moments of tension created by droning spaces and rhythmic motions, feeling the physical pull of these dichotomies. The viewer is presented with live imagery which illustrates these sonic spaces, reinforcing both the calm and the distress that comes with sensory immersion.

From left to right: Anna Xambó and Anna Weisling performing "Beacon" at TEI 2018. Kulturhuset, Stockholm, Sweden (20.3.18). Photo by Hiroshi Ishii.

Side A

Beacon (14:14)
